

Riya H.S. Pandey

9321686719 | riyapandey3764@gmail.com | Kalyan, Maharashtra

■ Objective

Highly motivated Master of Data Analytics (MSc.DA) student with a strong foundation in high-performance computing concepts, algorithms, and data processing. Seeking a Data Processing Developer Technology Intern role to apply expertise in performance optimization and robust software development to large-scale computational challenges. Known for a logical approach to problem-solving, effective communication, and efficient time management.

■ Technical Skills

- Programming: Python, SQL, MongoDB
- Visualization : Numpy, Seaborn, Matplotlib
- Tools: Tableau, Power BI, Jupyter Notebook, Git, Github

■ Key Projects & Experience

- Facial Golden Ratio Detection (Python, Google Colab, Data Visualization): Developed a project to detect facial proportions and visualize symmetry metrics.
- Power BI Visualization Projects: Created dashboards for job counts, salaries, global trends, and comparisons.
- Movie Recommender System: Built a content-based movie recommendation engine with performance optimization using C++.
- Route Optimization System: Created a shortest-time route prediction model using ML logic and optimized algorithms.
- Global Data Processing & Visualization Projects: Conducted factory downtime analysis, job market analytics, and pay distribution analysis.

■ Education

- Masters of Data Analytics (MSc.DA) – Pursuing
University of Mumbai, Kalina - Kurla
- Bachelor of Science (B.Sc. IT) (Aug 2022 – May 2025) CGPA: 8.75
Model College of Science and Commerce, Kalyan

■ Certifications & Trainings

- Data Analytics Job Simulation (Deloitte/Forage): Practical tasks in data analysis and forensic technology.
- Research Methodology Course (Udemy): Training in structured research techniques.
- Cloud Computing Intern (iFuture): Hands-on experience with cloud services and security.

■ Strengths

- Logical Problem Solving: Strong reasoning abilities, time management, and prioritization.
- Communication: Confident presenter with strong research-based documentation skills.
